Powers Will Protest.

May 21.—(Noon)—It is also
ertain that the battleship Hat-

use was sunk by a Russian mine ten
miles off the coast. The position of
these mines make navigation danger-
ous for neutral vessels, and a protest
from foreign governments is expected.
The loss of the Japanese freshets is
felt keenly here. No flags are flying
in this city and the nightly lantern pa-
rades have been abandoned. American
nurses will go to the Kroschima re-
ceiving hospital on the 25th inst.

Delayed in Transmission.

New Chwang, Friday, May 20.—(Mid-

night)—(Delayed in transmission)—
The officials have not received any
further information regarding the
fighting which resulted in the retreat
of the Japanese on Feng Wang Cheng
but there is good authority for saying
that the Japanese movements in the
direction of Liao Yang and Hai Cheng
were, for the purpose of causing the
Russians in this vicinity to move
northward, thus giving the Japanese
an opportunity to complete their pre-
parations to capture Port Arthur.
When the Japanese begin a determi-
ned movement in this vicinity, it will
be from Feng Wang Cheng and New
Chwang. They figured that it does
not matter what may be the fate of
the Yalu army, if they can continue
to control the sea and Port Arthur.

The Japanese are still fortifying the
hills on the neck of land between Ta-

lien Wan and Kin Chou Bay's. Many
rapid fire guns, protected by sand
bags have been mounted there with
the object of resisting a sortie of the
beleaguered garrison.

A spy set fire to the wood work of
the water tanks of the local railroad
station this afternoon. It is believed
this was part of a plot to injure the
railroad.

Russians Growing Sanguine.

Mukden, May 20.—The main body
of the Japanese forces estimated at
80,000 men, remains south of the
Russian troops who are covering
Liao Yang. They apparently have
suspended their advance. This inac-

tion causes surprise and some satis-
faction as every day's postponement
of a decisive engagement is consid-
ered favorable for the Russians, who
are daily increasing their forces and
are enabled by the delay to strengthen
their positions. It is supposed that
the recent rains hampered the move-
ment of the Japanese artillery and
compelled a temporary halt. The
Russians still hold the railroad to
Tehikau.

Ginseng Still Grows.

Seoul, Friday, May 20.—4 p. m.—
(Delayed in transmission)—The Ja-
panese consul at Gen San reports that
about three hundred Russians occupied
Kan Kow (Ham Heing), forty miles

north of Gen San, May 19, with the
usual stories of looting and rape by
the Cossacks. The main body of 3,000
men, is said to be following the force
which occupied Kan Kow. There is
no telegraphic communication north
of Gen San. The consul there be-
lieves that part of the force which re-
cently attacked Anju is retreating
from Nin Yeng. It is considered pos-
sible that the Cossacks have had a
base at Kyong-Song for weeks past.

The Gen San garrison which con-
sists of a battalion of infantry, will
not take the initiative, but will await
an attack, which is now expected.

The Japanese authorities here are
inclined to ridicule the Russian move-
ments on the east coast and wish for
the advance of a larger column, mak-
ing it worth while to cut it off. The
only sufferers, it is pointed out, are
the Koreans.

The Mitsui company has shipped
last year's ginseng crop, valued at \$1,
000,000, from Chemulpo to Chee Po.
The differences with the Rondona, a
French firm, have finally been settled.
The Japanese secured a five year's
contract.

Korean Troops in Engagement.

Seoul, May 21.—11:30 a. m.—The
Japanese consul at Gen San reports
that the first collision between Rus-
sians and Korean troops has taken
place at Kan Kow (Ham Cheng), the
recent center of the Northern Tong
Hak disturbances. Cossacks attacked
the so-called city castle at seven
o'clock in the evening of May 9, and
exchanged shots for two hours with
the Korean garrison of three hundred
men, who lost one man.

Natives report that several of the
Russians were wounded. Telegraphic
communication has now been estab-
lished to a point eighty miles north
of Gen San.

Japs Capture Kai Chou.

It has not been officially reported it
is said of good authority that the Ja-
panese forces have captured Kai Chou,
driving the Russians back to Tash-
chia, in the direction of New Chwang,
and preventing the advance of the
Russian troops at New Chwang in
the direction of Kai Chou. The bomb-
ardment by the Japanese of the vic-
inity of Kai Chou recently was prob-
ably in preparation for the landing of
forces in the northwest corner of the
Liao Tung Peninsula for the purpose
of capturing New Chwang, and co-op-
eration with the other armies in the
march on Liao Yang.

Probably a small Japanese force
has been landed at Kin Chou Bay,
Taku Shan, where Japanese forces
were landed May 19, is at the mouth
of Dayan river, west of the Yalu.

TOM Johnson Booms Jos. Folk For President

By Calling Attention to
Honesty
And Fearlessness Shown By
Missouri in Going
After Grafters.

Mayer Selected as a Delegate to Na-
tional Convention, Along With
J. E. Clark—E. G. Vail
Nominated for Congress.

Cleveland, May 21.—The 21st dis-
trict democratic convention held here
today nominated Edmund G. Vail, for
congress. Mayor Tom L. Johnson and
John H. Clark were selected as dele-
gates to the national convention. They
were not instructed. Mayor Johnson
in the course of a speech at the con-
vention said:

"A few years ago an unknown young
man way out in Missouri commenced
to talk about honesty in public life.
He was elected circuit attorney. From
that moment millionaires as well as
the cheapest political grafter learned
that Jos. W. Folk, believed what he
said. Mr. Folk pursued the crooked
millionaires as well as the cheap
grafter and landed them in the peni-
tentiary, the end is not yet in the
chase for criminals in Missouri, and
today this fearless young democrat is
as good as nominated as candidate for
governor.

"There are political grafters in
Washington. We know that to our
sorrow. Perhaps Mr. Folk could find
labor for his talents as the president
of the United States, aiming his giant-
like blows at official rottenness in
Washington. I am not attempting to
forecast the action of the coming na-
tional convention, but fearless Joseph
Folk should be kept in mind."

Subsequently the anti-Johnson
democrats of the 21st district held an
independent convention and nominat-
ed August Zehering for congress. L.
R. Dunham and Thomas H. Hogsett
were named as delegates to the nation-
al convention.

Bedford, Ind., May 21.—In the trial
of James McDonald, charged with the
murder of Sarah Shafer, Dr. Jos.
Gardner, a microscopist, was called as
an expert. In the clinged hand of
Miss Shafer, after the murder, were
three hairs, one of a reddish hue torn
from a mustache and the other two
dark head hairs. Five hairs from Mc-
Donald's head and three from the mus-
tache were handed Dr. Gardner, who
was asked to compare them with the
three hairs found in Miss Shafer's
hand, after death. Dr. Gardner said
that two of the hairs taken from Mc-
Donald's head were so much like the
hairs found in the dead girl's hand
that it was not improbable they were
from the same head. The testimony
was not broken down on cross-exami-
nation, though a doubt was admitted.
The introduction of the hairs as evi-
dence was over the determined ob-
jections of the defense.

Omaha, May 21.—The town of Bone-

grown in less than a month from a vil-
lage of 290 to a city of 3,000. Bone-
stel is located at the edge of the Rose-

Her and Won Her Promise,

But His Love

Grew Cold Before the Marriage Day.

Emma Godfrey Sues Daniel Miller for Breach of Promise,

And Says Her Feelings Have Been Damaged to the Extent of \$5,000—Divorces Granted This Morning.

Of the many phases of litigation the breach of promise suit is perhaps the most unusual, but occasionally a woman braves the situation and protects herself from deceit by appealing to the courts. A petition of that nature was filed this morning by Ellen Godfrey against the plaintiff, and she names Daniel Miller as the man who won her affections, and then permitted his love to run cold.

She says that on the 1st of November, 1903, at his request she promised to marry him, and the promise was renewed from time to time until Feb. 1, 1904. During the time that intervened she remained ready and willing to marry him, and is still of the same mind. But, she says, the defendant

refuses to marry her, and his refusal is the stumbling block to her happiness. As there is no law to compel the defendant to carry out his alleged original intentions, the plaintiff resorts to the only recourse left and weighs her injury in the scales. Because of his alleged deceit, she says she has suffered in mind and health and believes she is entitled to recover damages in the sum of \$5,000.

The plaintiff in the case is a resident of Lima, and was divorced from her former husband six months or more ago. The defendant is a contractor and well known in Lima, where he makes his headquarters.

Fraud Is Charged.
Wheeler & Bentley filed a petition this morning which has some peculiar points about it. The plaintiff is John U. Badertscher and the defendants, John Watkins and Mr. and Mrs. Geo. Kimmell. The charge is made that the defendants conspired to defraud the plaintiff, and charged him with having committed a crime against the peace and dignity of the state of Ohio.

It is alleged that the defendants threatened him with prosecution and on the 7th of May, compelled him to go before a justice of the peace at Bluffton, where, while under duress, he made certain false and fraudulent statements. Then by threatening him with arrest, the defendants secured from him the sum of \$100. They have since refused to return the money and he asks judgment for that amount.

Two Divorces Granted.
During the morning session of court, Judge Cunningham heard and granted two applications for divorce.
Emma Poling was granted a separation from Samuel Poling on the ground of gross neglect of duty. The couple lived near Elida, and while there was no defense made as to the

granting of a decree, Wm. Klinger appeared for the defendant to protect his property interests. Fees and Rogers represented the plaintiff, and the court left the question of alimony for settlement between the attorneys.
Effie McClure vs. Samuel McClure. was another case disposed of, the plaintiff being represented by M. J. Sanford. The defendant deserted his wife in Oklahoma, and she was granted a divorce on the ground of wilful absence for more than three years.

TRAVELING IS DANGEROUS.
Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. H. Hausan, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Chosen to Represent Lima Library Ass'n.

At State Meeting Will Seek to Secure Next Session for This City.

Prof. C. C. Miller, Mrs. C. F. Lufkin and Miss Medora Freeman will represent the Library Association at the state meeting to be held in Findlay on Tuesday, Wednesday and Thursday of next week.

At a meeting of the Library board, held on Thursday night, these representatives were authorized to invite the state association to meet in Lima next year. If the invitation is accepted, Lima will, without doubt, make their meeting here a memorable one.

We have received four more volumes of the Century. If you have a few volumes or even add numbers of this magazine, let us have them. Help to make the library file complete and then you will always know where to come for the valuable material it contains.

Mr. Carnegie has given the library a copy of Wm. T. Hornsby's "The American Natural History." The author is the director of the New York Zoological Park and is familiar with his subject, or subjects rather, as this park contains at least one of nearly every animal described in his book. Drawings and photographs from life make up the illustrations, which are many and interesting.

MODERN WODMEN O FAMERICA.

Regular meeting on Monday evening at 7:30 o'clock. Let there be a large attendance, to take good care of the candidates. They want all, and a little more. Refreshments will be served, and a good time is in store for all who are present. No meeting Monday the 30th.

WEATHER.

Washington, May 21.—For Ohio:
Fair tonight and Sunday, warmer to-
night in central portion; fresh west
winds.

In his Ranch Life (pp. 9 and 10),
Theodore Roosevelt wrote that the
cowboys were "brutally dissipated,"
but "they are much better fellows and
pleasanter companions than small far-
mers or agricultural laborers; nor are
the mechanics and workmen of a great
city to be mentioned in the same
breath."

The temperance enthusiasts are
trying to make the Panama canal zone
prohibition territory. Let them push
their cause to the president. He is
the boss down here. It may seem a
little hard to bring a candidate face
to face with an embarrassing issue in
the moment of a campaign, but prin-
ciple is the thing, not individual
interests.—Cincinnati Enquirer.

WHO DOES HE MEAN.

It was expected too much to hope
that the state republican convention
would nominate for member of the
Board of Public Works, a man of the
sturdy stuff of which T. D. Hamlin is
made. He was concededly the fittest
candidate presented. He is honest,
capable and sincerely a friend of the
public waterways. He believes in
bringing them in the interests of the
state, and not of highway robbers
and plunderers.—Sidney Journal.

NINE MEN DROWNED.

North Sidney, May 21.—The British
steamer Turret Bay, bound from Lon-
don for St. Lawrence ports, is report-
ed wrecked at St. Paul's Island about
15 miles north of this island. It is re-
ported that several of her crew were
lost. The Turret Bay carried freight
it is understood that no passengers
were on board.

Later it was learned that the steam-
er went on the rocks, during a dense
fog, and later barked off and sank.
Fourteen of the crew were taken off
floating wreckage with boats, but five
died before reaching shore.

The Turret Bay was a steel ves-
sel of 2,212 gross tons.

A later despatch from St. Paul Is-
land says that only one of the twenty-
three men carried by the Turret Bay

were saved. Nine men were drowned
outright and fourteen were rescued
from wreckage by persons who went
out in boats from the island, but of
the fourteen, five died before reach-
ing shore.

HEAVENLY HARMONY.

"He must be a bad man, fit for trea-
sons, stratagems and bolts, who is not
refreshed, strengthened and made bet-
ter by the republican praise meeting,
the undisturbed sound of pure consent,
now heard all around," says the New
York Sun.

"In New York, all the organs play
"Benny Boodle's Come to Town" and
"Hail to the Grac."

"In the Indiana gubernatorial stakes
the Hon. Charles Warren Fairbank's
entry, the Hon. J. Frank Hanly, has
beaten the Hon. Bertie Beveridge's
entry, the Hon. Wm. Lawrence Pen-
fash, to Charlie."

"In Ohio the Hon. Myron T. Herrick,
the Hon. George Boss Cox and the
Hon. Charles Dick dance delightfully
around the Hon. Joseph Foraker,
while wind and wood and brass inun-
derable utter the sweet entreaty, "Do
You Love Me, Joey, Darling?"

"In Illinois, Yates men, Lowden men,
Hamlin men, for many days have been
giving one another black eyes in the
most cordial, informal, delightful, de-
lighted way. Music by the band:

"The King of the Cannibal Islands,
He was the boy was chimney, O;
He ate you up and put you down,
And tucked you in his tummy, O."

"In Wisconsin today, Gov. LaFollette,
the man that eats the railroads, is ex-
pected to eat alive P. M. G. Payne,
Senator Spooner, Congressman Joe
Babcock, of Neodesha, and divers other
pieces of the ancient Badger machine.
He does, 'tis but to incorporate them
in himself, fuse and transmute them,
Broiled live politician is this excellent
man's favorite diet. Blow, musicians,
and crack your cheeks. "O, Boh La-
Pollette Has Come Out of the West."

"And from the White House comes a
loud, large voice:
"Cheer, boys, cheer, and don't be af-
frighted;
Strengthen the sagging and comfort
the sore;
For the Field of the Rose, it shall
never be blighted,
Nothing shall stop me from being de-
lighted,
So trust in and stick to your own
Theodore."

IOWA REPUBLICANS REJECT THE "IOWA IDEA."

The republicans of Iowa, a state
convention have abandoned and re-
pudiated the "Iowa Idea." Having
sounded the slogan of tariff revision
and reciprocity for three years and
having witnessed an emphatic insores-
tance of this idea, not only by the vot-
ers of the West and Northwest, the
party in the state now declares itself
opposed to tariff revision and in favor
of "reciprocity in non-competitive pro-
ducts only."

Even Governor Cummins, the most
aggressive and enthusiastic champion
of the "Iowa Idea," has seen a great
light. Before the resolutions prepared
by the "standpaters," had been pre-
sented to the convention, he declared:
"Whatever the platform may be, from
this moment I stand upon it."

And this platform, which Governor
Cummins must stand upon, rejects
not only the "Iowa Idea" but declares
in favor of the particular kind of spur-
ious "reciprocity" which the governor
has ridiculed in many public address-
es, and which he has shown has shut
the products of American labor out
of the markets of Canada.

Some idea of the kind of a "drip,"
which the party in Iowa, under the
lead of the "standpaters," has ex-
ecuted may be gained from a reference
to its state platform. In the plat-
form of 1902, the party declared in
favor of "such changes in the tariff
from time to time as may become ad-
visable through the progress of our
industries and their changing relations
to the commerce of the world."

In a state platform adopted in 1903,
the republicans of Iowa declared:
"Tariff rates enacted to carry this
(protection) policy into effect shall be
just, fair and impartial, equally op-
posed to foreign control and domestic
monopoly, to sectional discrimination
and individual favoritism, and from
time to time be changed to meet the
varying conditions incident to pro-
gress of our industries and their
changing relations to our foreign and
domestic commerce. Duties that are

too low should be increased and duties
that are too high should be reduced.
On the question of reciprocity, the
republicans make this declaration:
"We endorse the policy of reciprocity
as the natural complement of pro-
tection. Reciprocity between na-
tions is trade for mutual advantage,
and both sides must give and take.
Protection builds up domestic indus-
tries and trade and secures our own
market for ourselves. Reciprocity
builds up foreign trade and finds an
outlet for surplus."

The republicans have proclaimed
their belief that "the tariff should be
revised by its friends." Is the party
in Iowa now in favor of leaving the
revision of the tariff to those who are
not its friends?—Chicago Record-Her-
ald (Ind.)

The action of Iowa republicans in
state convention, with Secretary of
the Treasury Shaw, and Senators All-
ison and Dooliver, all month pieces of
the administration, present can be
taken as a correct line on the policy
the republican party will continue to
pursue in tariff matters. It has no in-
tention to deviate from high protec-
tion or endorse reciprocity, and any
talk that it does is only for the pur-
pose of stealing, if possible, one of the
things upon which democracy will
wage intelligent and desperate battle
for the people in the coming cam-
paign.

Iowa gives the subterfuge away, and
the people will not be deceived by any
tariff clap-net the republican nation-
al convention may dish up in its plat-
form.

The kind of revision of tariff the
county will get from a republican con-
gress, advised by a republican presi-
dent, will be of the "standpat" sort.

IDEA.

(Continued from page 8.)
has money done for the world com-
pared with the literature of Emerson;
with the music of Beethoven; with the
art of Angelo?

But, an ethical conception of
money is necessary and this is too
often lacking. What does money
mean to you? Does it mean com-
fort, education, travel, books and op-
portunity to help your fellow-man, or
does it mean more wealth, more prop-
erty and more millions? What mes-
sage does it bring to you? Schools
for the ignorant, hospitals for the
sick, homes for the poor, libraries for
the public, or more for yourself and
less for others? Does it bring a mes-
sage of charity and noble ambition or
does it bring meanness and narrow-
ness?

"Men are measured by what they
do and not by what they possess." Who
would not choose to be a mil-
lionaire of deeds with a Lincoln, a
Grant, a Florence Nightingale; a mil-
lionaire of ideas with Emerson, with
Lewell, with Shakespeare; a mil-
lionaire of statesmanship with a Glad-
stone, a Bright, a Sumner; rather
than a millionaire of dollars with a
Rothschild, a Rockefeller, and a Van-
derbilt?

Nothing can be greater than that
which creates it, and as the idea is the
creator of the dollar, it must conse-
quently be superior to the dollar.
Oh, would that all men recognized
this fact! Would that they made the
idea and not the dollar their ideal!
For while the man of dollars is build-
ing a stone palace that will ere long
crumble into nothingness, the man of
ideas is, day by day, building a monu-
ment that will last forever and can
never be destroyed.

It is situated on west McKibben street

FLAMES

**Do Heavy Damage at Holland
Planing Mill.**

**Five Streams of Water Used by
Two Fire Departments Before
Fire Was Under Control.**

At 3:15 o'clock this morning, the
central and north side fire depart-
ments were called out by an alarm
from box 24 to extinguish a threaten-
ing blaze that had started in about the
center of H. S. Moulton's planing
mill at the corner of North and Cen-
tral avenue. The flames had gained
good headway and five streams of wa-
ter were used by the firemen before
they succeeded in getting the fire un-
der control. The building was quite
badly gutted and heavy damage was
done to the machinery. No estima-
te of the loss can yet be given, but it
will exceed the amount of the insur-
ance carried—\$2,000. The origin of
the fire is a mystery.

OPERATION

**Terminated in the Death of
Mrs. Frankie Sealts.**

Mrs. Frankie Sealts, aged about 38
years, who has been proprietress of
what has been known as the Pony
house, situated opposite the P. Ft.
W. & C. depot, for a number of years,
died at the city hospital this morning
immediately after an operation that
had been performed for bowel trouble.
No arrangements for the funeral
have yet been made.

THE MARKETS.

New York, May 21.—The listless
drift of prices for stocks in Wall
street, this week, indicates the halting
tone of speculative sentiment. The
limits and the ultimate effects of the
flood of gold exports are subjects of
some uneasiness, which have not been
justified by any perceptible effect in
the money market. Declining railroad
earnings, the moderate expressions of
traffic officials over the prospect, dis-
couraging views over the course of
the iron and steel trade, a growing
conviction of an impairment of the
winter wheat crop to be harvested,
unfavorable conditions for the cotton
crop and the belief that trade activity
generally is on a diminishing scale,
have contributed to the neglect of the
stock market.

Wall Street Fluctuations.

New York, May 21.—The merely nom-
inal market at the opening offered no
feature of interest in stocks today.
None of the leading stocks varied
more than a quarter. The conditions
were all gains. Twin City Rapid Tran-
sit gained a point and Realty preferred
3/4.

The traders bid up Pacific's on infor-
mation that the bank statement would
offer pleasant surprise. Buying dwindle
d after the publication of the state-
ment, and prices drifted off again.
The rise lifted Penna., Erie, Louisville
and Nashville, St. Paul, C. & O. West-
ern Union and Hide and Leather pre-
ferred about a point. Con Gas 1 3/8,
and U. S. Steel preferred, Atchafson
and Reading 1 1/2. Prices advanced
again to the best and the closing was
strong.

Toledo Grain.

Toledo, May 21.—Wheat May 109 1/2;

Lima Tea Company

Whiskey and Beer Habit

PERMANENTLY CURED BY

"ORRINE"

ABSOLUTELY SAFE, SURE AND HARMLESS.

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid
craving for a stimulant. Continued indulgence in whiskey, beer or wine eat away the
stomach lining and stupefies the digestive organs, thus destroying the digestion and
ruining the health. No "will power" can heal the inflamed stomach membranes.
"ORRINE" permanently removes the craving for liquor by acting directly on the
affected nerves, restoring the stomach and digestive organs to normal conditions, improving
the appetite and restoring the health. Can be given secretly if desired.

Cure Effect or Money Refunded.

Ask your druggist whom you know what he thinks of ORRINE; he will endorse
our statements as truthful in every respect. If ORRINE fails to cure we will refund
you every penny paid for it as cheerfully as we took it.

No Sanitarium Treatment or Publicity!

No Absence from home or loss of time!

Mothers, wives and sisters, you cannot cure those who are afflicted with this most
terrible of all diseases by your fervent prayers, or eyes red with tears, nor by your
hope that they may stop drinking. It can be done only with ORRINE. You have
the remedy—will you use it? If you desire to cure without the knowledge of the patient,
buy ORRINE No. 1; if the patient desires to be cured of his own free will, buy
ORRINE No. 2. Full directions found in each package. Price \$1 per box.

We will gladly furnish a treatment free of cost to any physician
to demonstrate that ORRINE is a positive specific for drunkenness.

FIGHT

Von By "Battling" Nelson

n Eighteenth.

Man With the Punch" Was Too Strong

or Martin Canole, of Fall River, Who Was Far More Clever.

After Landed Five Blows to Nelson's One, But Did Not Have Staying Powers Equal to the Chicago Man.

San Francisco, May 21.—If ever a man lived up to his sobriquet "Battling" Nelson, of Chicago, did so last night when, after 18 rounds of terrific fighting, he knocked out Martin Canole, of Fall River, Mass.

It was a battle between exceptional clever boxers, and hard sluggers. Wonderful staying powers and the in with the punch won. With the exception of the sixth round, in which was sent to the floor, Canole had a fight by a good margin on points to the eleventh. He had landed a times to Nelson's once, though without much effect. Beginning with the eleventh round, however, Nelson's faster staying powers began to assert themselves and he backed Canole all over the ring. The latter landed when pleased, but his blows were powerless to stop the rugged youngster from Chicago. Canole was bleeding and several times was in distress from terrific right and lefts to the jaw. In the 18th round, Nelson sent for his man with a rush and landed a left flush to the Massachusetts man's jaw. Canole dropped for a count and rose in a dazed condition. Nelson quickly whipped his opponent to the face and the fight was over.

James Bayard, of New York, was the decision over Henry Lewis, of San Francisco, at the conclusion of the eighth round. Lewis dislocated his right shoulder.

NOT TIME FOR HIMSELF.

One of the latest and best stories of unselfishness concerns a Pennsylvania professor. Being called to on some urgent matter recently, he expected to be engaged for some hours, he affixed a notice to the door of his private sanctum, stating that he would not be back till 3 o'clock in the afternoon.

As it happened, he was able to get away earlier, and arrived back at his chambers a little before 2 o'clock. Seeing his own notice, which he had forgotten, on the door, he read carefully. When he had thoroughly tested its contents, he took a seat on the stairs and waited patiently until 3 o'clock.—Stray Stories.

TROUBLES

In Store for Several Persons Who Choose Roofing Blindly.

Cheap ready roofing is the cause of much damage on several recently built business blocks, after a couple of years wear, the roof become worthless. No part of the building calls for more careful consideration and judgment in the selection of the kind best adapted for the work in hand, than in the roof. For flat roofs, bituminous composition stands supreme notwithstanding the handicap it carries in the numerous cheap paper roofings. All have felt paper and bituminous cement for the base, but the base differs in quality. Experienced workmanship and the proper quality of material is the only combination from which satisfactory results follow. The Anchor Brand Asphalt Roof, which the National Cornice Co., of Lima, erects, has a reputation of 30 years, and has a greater durability than any other bituminous composition roofing. The owners of the Swiss block, who have had experience with this roof are having the National Cornice Co. erect the Anchor Brand roof on their new block. Over 10,000 sq feet of this roofing has been erected last fall by this company, and they are always ready to demonstrate the lasting qualities of this roof and the troubles and money saved by getting this good roof.

QUITE

A Shake-Up In the Line-Up

Of Lima Team.

Frank Sealts Is to Return Tonight

And Will Go Behind the Bat for the Lima Players Tomorrow.

Arcade Team Will Tackle Nebraska Indians With the Same Strong Line Up That Defeated New Bremen.

The line-up for the Lima team which is to play the Cedar Point Stars on the Wheeler Park grounds tomorrow, shows that Captain Mert Sealts has been doing some shaking-up since he accepted third base position and the captaincy of the team the first of this week. The line-up for tomorrow is as follows:

Frank Sealts, catcher; Wise, pitcher; Rhodes, first base; E. Sealts, second; Overly, short stop; M. Sealts, third; Miller, left field; R. Sealts, center; Altschul, right; Shackne, pitcher. Wise is to pitch tomorrow's game, and Shackne, who is a crack pitcher, from Toledo, is to occupy the bench or to fill any position in which an extra man may be needed.

The Sealts boys need no introduction. All local fans know that they are all good ball players and that the team has been greatly strengthened by their signing. Frank Sealts is a catcher who is good enough for any fast company. He writes to Manager Charley Maxwell, that he will arrive in Lima tonight, to join the Lima team. He has been playing with a strong team at Warren, O., but has resigned to return to this city.

The new first baseman is a fast player who held that position on the Paulding team last year. The team was then one of the strongest in Northwestern Ohio. Miller, the new left fielder, is also said to be a good player who has drawn salary in fast company.

Arcades Unchanged.
 For the present, at least, "Runt" Welsh and Harry Lawlor seem to be out of the game. Lawlor resigned from the Lima team because Captain Sealts wanted to change him from first base to the outfield and Welsh decided to retire with Lawlor. The report that they had joined the Arcade team is denied by the management of that team. The Arcades had a strong team when they defeated New Bremen and the management decided to make no changes in the line-up for the game with the Nebraska Indians tomorrow.

National League.
 As was predicted by the Times-Democrat yesterday, the National League results of yesterday again made important changes in the positions of the leading teams in the pennant race. Chicago beat New York and went to first place, New York dropping to third position, while Cincinnati defeated the Phillies and returned to second position. Jack Harp-er pitched yesterday's game for the Reds, and held the Quakers down to one hit.

A REMARKABLE TEST

APPLIED BY A TEACHER IN A LEADING UNIVERSITY.

Demonstrates the Power of Dr. Williams' Pink Pills to Restore Shattered Nerves.

Mrs. Leander Lane, wife of the minister of the Christian Church, of No. 2010 1 street South Omaha, Neb., tells how her daughter has been enabled to resume her professional work as a teacher after suffering for nearly three years from severe nervous prostration.

"When she was passing from girlhood to womanhood," says Mrs. Lane, "she suffered greatly from difficulties peculiar to her sex. The physician did not help her, but a few boxes of Dr. Williams' Pink Pills brought about the perfect regulation of her system."

"While she had escaped from one grave trouble, she unfortunately began to overwork, first as a student and then as a teacher in a large Iowa institution for orphan boys. She enjoyed her work and was very enthusiastic, but the strain finally told on her. She became pale, weak, nervous, unable to sleep; she had no appetite and she suffered from severe headaches. Then came a complete breakdown and her work had to be given up."

"The confidence which Dr. Williams' Pink Pills had already inspired in us led us to try them again in this emergency. Improvement came at first slowly, and we sometimes doubted whether she was gaining, but we noticed that whenever she stopped taking the pills she fell back, and when ever she resumed the use of them she revived and so we kept up the treatment until she recovered her usual health and was able to take a position in one of our universities where she is happily at work. My mother, my daughter and myself have a well-founded confidence in the merits of Dr. Williams' Pink Pills and are always ready to recommend them."

This is simply one more proof that these pills seek disease at its source and effect fundamental cures in all diseases having a common origin in impaired blood or nerves. They arrest physical decay when it seems inevitable and find a road to restoration when the doctor misses it. They are sold by all druggists throughout the world.

\$500 Reward For Women Who Cannot Be Cured.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Pimples, or Falling of Womb, when they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I used four bottles of your 'Favorite Prescription' and one of 'Golden Medical Discovery,'" writes Mrs. Elmer D. Shearer of Mount Hope, Lancaster Co., Pa., "and can say that I am cured of that dreaded disease, recurring trouble. Am in better health than ever before. Every one who knows me is surprised to see me look so well. In June I was so poor in health that at times I could not walk. Today I am cured, I tell everybody that Dr. Pierce's medicines cure me."

FAIRY DR. PIERCE'S Common Sense Medical Adviser is sent free on receipt of stamp to pay expense of mailing only. Send 31 cents in cash for the cloth-bound volume. Address: World's Dispensary, Mutual Association, Proprietors, Buffalo, N. Y.

What Makes Good Values in Pianos?

Is it price or quality? Neither one alone—both together. "Trash is trash, though a gift and good pianos are not good value except at fair prices. A business man is loath to pay \$1.01 for the pretentious dollar ever coined. Yet he is little more unwise than his more numerous brother who thinks no article has "good value" unless it has a high price tacked to it."

OBITUARY.

Of Mrs. Frank J. Bolton Bertha Jane Ratliff, daughter of M. O. and Barbara E. Ratliff, was born in Bluffton, Ind., June 9, 1882, and died at Sharpville, Ind., Sunday, April 17, 1904, at the age of 21 years, 10 months and 8 days.

October 13, 1903, the deceased was united in marriage to Frank J. Bolton at Lima, Ohio. Soon after their marriage, they moved into their home on south West street, of this city, anticipating a long, pleasant married life in their own home. But unexpectedly disease took a strong hold on Mrs. Bolton, and she was compelled to close her home and for a time, live with her husband's parents and later, with the hope that such a change might do her good, she went to the home of her parents in Sharpville, Ind.

Nothing, however, seemed to avail. The tender care of her loved ones, the best medical and her own hope and will, all failed to check the course of the disease.

She clung to life to the very last. She was ever planning to make a happy home for her beloved husband, but alas, it was planned that she go to that long and better home. Truly her sun has set while it was yet day.

Her remains were brought back to Lima and the funeral services conducted at the home of Henry C. Bolton, on east Elm street, Rev. C. C. Kennedy officiating. The presence of so many beautiful floral offerings indicate the esteem in which she and her husband were held by their many friends.

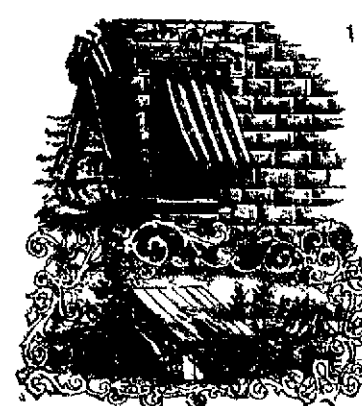

The interment occurred in Woodlawn cemetery, Wednesday, April 20, 1904, where she awaits the resurrection of the just.

One of the greatest blessings a modest man can wish for is a good, reliable set of bowels. If you are not the happy possessor of such an outfit you can greatly improve the efficiency of those you have by the judicious use of Chamberlain's Stomach and Liver Tablets. They are pleasant to take and agreeable in effect. For sale by all druggists.

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months. I recommend it to all young women who suffer from female weakness."—Miss ALMA PRATT, Holly, Mich.

FREE MEDICAL ADVICE TO YOUNG GIRLS. All young girls at this period of life are earnestly invited to write Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given, and her address is Lynn, Mass.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham believes that our girls are often pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries. Nothing is so common as to see a girl, who has been pushed to the front and graduated with honor; often physical collapse follows, and it takes years to recover the lost vitality,—often it is never recovered.

A Young Chicago Girl Saved from Despair. "DEAR MRS. PINKHAM:—I wish to thank you for the help and benefit I have received through the use of Lydia E. Pinkham's Vegetable Compound and Liver Pills. When I was about seventeen years old I suddenly seemed to lose my usual good health and vitality. Father said I studied too hard, but the doctor thought different and prescribed tonics, which I took by the quart without relief. Reading one day in the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself, and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more."—LILLIE E. SIMCLAIR, 17 E. 22d St., Chicago Ill."

Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life; with it she can go through with courage and safety the work she must accomplish, and fortify her physical well being so that her future life may be insured against sickness and suffering.

\$5000 BOUNTY If we cannot forthwith produce the original letters and signatures of above testimonials, which will prove her statements, we will pay \$5000. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Miss Rose Risley Won First Prize at the Senior Oratorical Contest

And Second and Third Fell to Miss Hattie Duggan and Fred Eastman—Others Received Honorable Mentions.

The first of what is to be an annual oratorical contest of the senior class of the Lima high school was held at the Congregational church last night, and eleven candidates delivered their maiden orations in the presence of a large and enthusiastic audience.

That it was a success, it is only necessary to quote one of the visiting judges, who made the statement that, as a class, the work was the best he had ever seen. Such a broad compliment coming from one who is himself an educator, certainly reflects great credit on the pupils, and is especially complimentary to Miss Edith Morris, the English teacher, who has been untiring in her drill of the eleven candidates for oratorical honors.

One thing stands out boldly, and was referred to by Superintendent Miller in his presentation of the prizes. The very point for which Lima contended in the northwestern oratorical contest, was what won the first prize last night. It was originality of thought, and the handling of her subject that won first honors for Miss Rose Risley. In delivery she was graded lower than some who were not within the honorable mention list, but her grades ran high on thought and composition and mind was held superior to bodily grace and elocution.

Prof. Wm. H. Meek, of the Dayton high school, who announced the decisions of the judges, paid all the candidates a high tribute and stated that the grading ran very close, the winners being but a few points ahead of those less favored. Prof. Meek was assisted in arriving at decisions by two other judges, Supt. H. R. McVay, of Sidney and Supt. H. H. Heller, of Wapakoneta. They had received copies of the orations in advance, and had given them the closest attention, having fixed the grades previous to last night, so that they merely sat in judgment on the delivery.

Prof. Lull, instructor of music in the public schools, added interest to the program with a well drilled chorus which sang several selections during the evening.

THE DECISIONS

Brought Surprises But the Judges Dealt in All Fairness.

Had the awarding of the prizes been left to the audience, the distribution would perhaps have been different, and still unsatisfactory, as there were scarcely two persons present who would have agreed on the relative standing of the contestants. All were inclined to judge from the delivery in most part, being unable to store away the good points of the oration, or balance the thoughts which entered into it with the nicety of the three judges, who had ample opportunity to give the compositions careful study. It is only another proof that all did well and what they have earned through the training received is of far more value than any monetary consideration.

Three cash prizes were given and two of the contestants came in for honorable mention. Prof. Meek began from the bottom and the audience was kept in considerable suspense for some moments as he went up the ladder to the top round. In order that the reader may not be dragged over the same coals, the list of awards is given in the order of positions of honor:

First prize, \$15 in gold—Miss Rose Risley, \$14 points.

Second prize, \$10 in gold—Miss Hattie Duggan, \$96 points.

Decision of the Judges.

composition of Miss Rose Risley, "The Dollar vs. the Idea," which won the first prize. It is published in full that those who were not present last night may judge of its excellence. Space will only permit of a brief reference, too brief in fact, to do justice to the others who won laurels for their splendid efforts.

The Nobility of Sacrifice.
Miss Hattie Duggan, whose oration bore the above title, won the second prize and received the highest number of points for delivery. Her theme was that the sacrifice of self in the performance of duty is the foundation, the keynote of success in life. She pictured the sacrifice on Calvary which saved the soul of man, and followed it with the illustrious deeds of those who gave their lives for country, religion and the principles wherein truth and bravery have their abiding place. In conclusion she quoted the words of Smith O'Brien, who, when condemned to die for speaking against the oppressors of his country, said: "The noblest way that a man can die, is when he dies for man."

A Nation's Honor.
It was a stirring picture that Fred Eastman drew to bring out all of the side lights of a cleverly conceived thought. The blacksmith who welded a chain and knowingly left in it a weakened link, held at the mercy a hundred lives when a ship at sea broke her anchor in a storm. A moment of haste, a moment of thoughtlessness and then the awful cost. "So some day," was the argument of the school boy philosopher, "May the ship of state be sent to sea, hanging by the chain of destiny, the links of which are welded by its law makers." His recapitulation was what should be vested in a nation's happiness, and then summed up the needed elements of honor, integrity, justice and the love and patriotism of a people strong in union.

Culture vs. Force.
Miss Vera Sherriek, who received honorable mention from the judges, deserved a place. She had a strong oration, and a good delivery, and her conclusions in the relative strength of the two attributes which formed her subject, were vividly drawn. It is easily detected that she meant to conclude that in the battle of life, culture would always be the master over brute force.

Concentration.
Miss Ethel Ridenour also came in for honorable mention "Concentration, or the Greatness of One Thing," was her theme, and her conclusion was that before a nation or an individual can succeed in accomplishing anything, there must be definiteness of aim, decision in regard to what can be mastered—in other words a recognition of the question: "What are the Talents Fate Has Given Me?"

The American people are fairly good examples of the truth that our power increases in proportion as we enter every thought and energy in the

Worth More Than the Dollar

Of Thought Which Won Highest Honors.

Oration of Miss Rose Risley Delivered at High School Oratorical Contest

And Which Was Graded High By the Three Judges for Its Originality of Thought and Composition.

The progress and prosperity of mankind is due entirely to the dollar and the idea. Each has its sphere and both are most powerful factors in the lives of men and nations, either for good or evil.

The dollar and the idea have jointly been instrumental in giving us all the greatest works of the world. They have given us our railroads; they have given us our manufactures. They have given us our schools, our electric plants, our system of telegraphy, and most important of all they have formed the very basis of our government.

The dollar has given us our beautiful parks, the idea our science. The dollar has produced our magnificent residences; the idea our literature. Indeed what is there in this world that these two elements have not produced? It then becomes a question with us, which has the greater influence, the dollar or the idea?

No one will deny that the dollar is a necessity. Nothing in the world has ever been built without cost. Trace the dollar from the very beginning of life. Is there a village, town or city in any country of the globe that has not felt the need of this almighty dollar? By this is not meant mere money in the shape of coin but in a broader sense, money, as a standard of value used in barter or exchange. In primitive times, among uncivilized people, numerous articles were used instead of metallic currency. Our American ancestors used tobacco as money. Hence, the material matters little; the conditions remain the same. The dollar has been indispensable even in the most uncivilized countries and has been the means of starting all works or industries, building schools or churches, factories, houses, putting the countries into better shape to afford comfort and convenience to the inhabitants and to gradually change the conditions, always pointing toward the improvements which come only with
